OBJECTIVE

- I'm a Senior Data Engineer turned entrepreneur, building and growing a tech community in Canada focused on learning, collaboration, and real-world impact.
- With a strong background in data engineering and software engineering, I've spent years designing scalable data systems, working with modern data stacks, and solving complex problems that sit at the intersection of data, product, and business.

SKILLS

Languages	Python, Go, Java
Database	Postgres, SQLServer

EXPERIENCE

Software Dev   Jan 2016 - Aug 2017
Nagarro

- Top performer of the product
